## **AMENDMENTS TO THE CLAIMS:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

## **Listing Of Claims:**

- 1.-9. (Canceled)
- 10. (New) A pencil ignition coil, comprising:
  - a rod core;
  - a first coil form having a first coil winding; and
- a second coil form having a second coil winding, wherein the second coil form is formed by an assembly including the first coil form, the first coil winding, and a potting compound for the first coil winding.
- 11. (New) The pencil ignition coil as recited in Claim 10, further comprising: contacts for the first coil winding, the contacts being embedded in the potting compound and forming part of the assembly.
- 12. (New) The pencil ignition coil as recited in Claim 11, further comprising: a flux return device bounding an air gap surrounding the first coil winding.
- 13. (New) The pencil ignition coil as recited in Claim 11, wherein the assembly is fixed with an elastomer.
- 14. (New) The pencil ignition coil as recited in Claim 13, wherein the rod core is fixed using the elastomer.
- 15. (New) The pencil ignition coil as recited in Claim 13, wherein the elastomer forms a protective jacket for a spark plug.
- 16. (New) The pencil ignition coil as recited in Claim 13, wherein the elastomer forms one of a retaining ring and a protective ring.

NY01 1002009 v1 3

- 17. (New) The pencil ignition coil as recited in Claim 13, wherein the primary winding is at least partially embedded in the elastomer.
- 18. (New) The pencil ignition coil as recited in Claim 13, wherein the elastomer forms a mechanical fixing for at least one of a flux return member and a terminal connector.
